(Comparable Blades)  
Wilson Gold Seal  
8' Rocker

**APEX FREESTYLE**  
(Comparable Blades)  
MK Phantom  
8' Rocker

**APEX ELITE**  
(Comparable Blades)  
Wilson Pattern 99  
8' Rocker

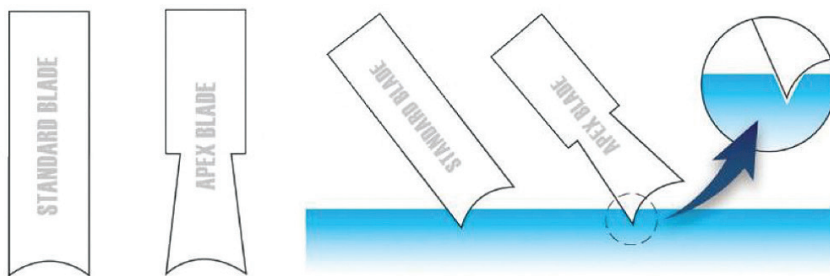

## DRIVEN TO PERFORM

The Apex Series was developed in consultation with leading skaters and coaches from the Jackson Family. Some brands are content with the status quo; at Ultima we are **driven to perform** for our athletes.

## TAPERED EDGES

*Our superior edge control is created through a tapered design:*

This unique design results in a quieter skating performance and superior edge control with better grip to the ice.

## TITANIUM COATING

- Titanium coating hardens the steel for superior edge life and less frequent sharpening with exceptional durability.
- Tapered edge design combined with harder steel creates enhanced edge control and speed.

# APEX SPECIALTY BLADES

## DRIVEN TO PERFORM

Our **Specialty Blade Series** incorporates key design features of our Apex Advanced Blades including **Tapered Edge Design** and **Titanium Coating** for tighter turns, faster glide and more control. We collaborated with leading skaters and coaches from the Dance and Synchro disciplines for specialty design elements and testing.

- Wider Runner Base for enhanced stability in Twizzle maneuvers
- Cut-out design for lighter weight
- 7' rocker design and short heels for enhanced maneuverability
- Higher Stanchion for deeper edge

The **Synchro blade's** more aggressive pick pattern addresses the evolution of the sport to more jumps, maneuvers and technical elements.
