

JACKSON FUSION SERIES

The New Standard in Outfits

Our new **Fusion Outfits** have **Swarovski crystals** inlaid in our microfiber uppers for lightweight and stylish design. **U-shaped cuff pattern** and adjusted back height allows for maximum flexibility without losing support.

Fusion Outfits are now made using Jackson's **Elite last** which provides a **wider toe box** to reduce pressure, and narrower heels for better heel-lock and stability.

- **Lightweight with exceptional comfort**
- **Designed for competitive skaters that aspire for greatness**

FUSION SOLE

The **Fusion Sole** is constructed from lightweight nylon composite which is **torque resistant** and **waterproof**. A rubber inlay provides non-slip blade mount and superior shock absorption.

WIDTH OPTIONS

All **Fusion Series** skates feature our **Heat Moldable Fit System**, allowing for a versatile fit in two widths; R (A & B) and W (C & D).

With improved patterns providing **additional wrap** and **shaped cuffs**, Fusion Series skates fit all ankle types and shapes.
