

# FULL CUSTOM

When only the best will do, customize your skate from top to bottom in 6-8 weeks

## SKATE TECHNICIANS

The first step to building the skate of your dreams is to be **evaluated** by one of our trusted retail partners. Our Authorized Jackson Dealers will ensure you receive the **proper attention**, from identifying your requirements, to initial fitting, and ensuring your expectations are met.

## CUSTOM FIT FOR YOU

Using results from a Foot Scan and Skate Tech measurements, we **modify** one of our standard lasts to conform to your **exact measurements**, creating a **custom last**. A custom upper is then **manufactured from scratch**.

Jackson Regular Last

Jackson Wide Last

## SUPPORT RATING & MODIFICATIONS

To **accommodate** specific variations in your feet and build the **desired support rating**, a Jackson team member can **modify the boot**.

## VARIETY OF MATERIALS

Choose from a variety of **leather** or **high performance microfiber** in a range of colours.

## CUSTOM CRYSTALS

High grade **Swarovski crystals** can create a unique look and be added in different patterns for extra **bling**!

Sole & Tongue changes only available on 5000 & 6000 series

## SOLE OPTIONS

A solid, lightweight sole made from nylon composite material which is torque resistant and waterproof. A rubber inlay provides non-slip blade mount.

Available in:

	Natural		Silver
	Black		Grey
	Gold		

With flexibility & rigidity that, combined with Pebax outsole & ABS insole, provides unmatched weight and strength. The 3 piece design allows strength & security in heels with sleek, low-profile look

Available in:

	Tan
	Black

Lightweight with superior shock absorption, reduced torque and moisture resistant.

Available in:

	Tan
	Black

LCL Leather Cork composite sole deliver improved stability and superior shock absorption.

Available in:

	Tan
	Black

## TONGUE OPTIONS

### 6000 Tongues

- Approximately 2.5 cm thick
- Provides strong support for those requiring a stronger tongue
- Molded insert eliminates lace bunching, keeping pressure evenly distributed
- Flex design on molded piece provides support without restrictions
- Felt can be covered in microfiber

### 5000 Tongues

- Approximately 2 cm thick
- Provides stiff support but allows for flexibility on knee bend
- Hooks in tongue for stability
- Extended soft wings on sides
- Soft dip on top for less shin irritation and more flexibility
- Fully covered with microfiber
