

# RAPID CUSTOM

Obtain the full custom experience in just 2-4 weeks and for a fraction of the cost.

CUSTOM FIT / COST EFFECTIVE / 2-4 WEEKS

## BUILD YOUR BOOT

Sole & Tongue changes only available on 5000 & 6000 series

Model

Tongue

Sole

Choose a model from our 2000, 5000, or 6000 series that best matches your support needs.

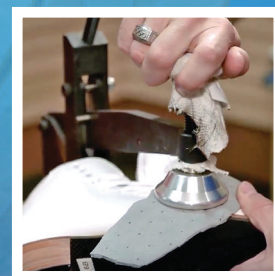

Choose your tongue based on the desired stiffness and thickness.

The boot sole enhances stability, improves shock absorption and ensures proper blade fit.

## CUSTOMIZED SPECIFICALLY FOR THE UNIQUENESS OF YOUR FEET

By using a wider or narrower last, the upper can be shaped to the desired fit by our manufacturing team. To further increase comfort and reduce the chance of injury, the upper can be modified to accommodate variations in your foot (ie. spurs, bunions, etc.).

## HEAT MOLDABLE FIT SYSTEM

When your Custom Boots are ready, your Skate Tech heats and then fits your boots to ensure optimal fit. The Heat Mold is an essential step in ensuring Optimal Fit.

## SOLE OPTIONS

A solid, lightweight sole made from nylon composite material which is torque resistant and waterproof. A rubber inlay provides non-slip blade mount.

Available in:

	Natural		Silver
	Black		Grey
	Gold		

With flexibility & rigidity that, combined with Pebax outsole & ABS insole, provides unmatched weight and strength. The 3 piece design allows strength & security in heels with sleek, low-profile look

Available in:

	Tan
	Black

Lightweight with superior shock absorption, reduced torque and moisture resistant.

Available in:

	Tan
	Black

LCL Leather Cork composite sole deliver improved stability and superior shock absorption.

Available in:

	Tan
	Black

## TONGUE OPTIONS

### 6000 Tongues

- Approximately 2.5 cm thick
- Provides strong support for those requiring a stronger tongue
- Molded insert eliminates lace bunching, keeping pressure evenly distributed
- Flex design on molded piece provides support without restrictions
- Felt can be covered in microfiber

### 5000 Tongues

- Approximately 2 cm thick
- Provides stiff support but allows for flexibility on knee bend
- Hooks in tongue for stability
- Extended soft wings on sides
- Soft dip on top for less shin irritation and more flexibility
- Fully covered with microfiber
