JACKSON SKATE TECH PARTNERS

The above charts are a guideline to help you choose a model. Selection of product should be made in consultation with your Authorized Jackson Dealers and their experienced Skate Technicians. These Skate Technicians have been trained and have a wide range of extensive experience in boot fitting and modifications, including:

- Initial needs evaluation and fitting
- Experience in Heat-Molding boots for a “custom fit”
- Proper blade mounting, sharpening and routine maintenance

Trust your trained Skate Tech to ensure a great fit!

Custom Fit in Minutes

Heat Moldable Fit System

We design boots to fit tight when cold. With **Jackson's Heat Moldable Fit System**, your Skate Technician uses heat to soften and stretch the boots. As the boot cools, it retains the shape of your foot.

Custom Fit in Minutes... You'll Warm to The Idea.

Jackson Support Rating System

A boot with the appropriate level of support is critical to skater performance and injury prevention. Selecting a boot that is too stiff for the skater's ability and physical characteristics can seriously impede the flexibility necessary to perform and develop skating skills. It can also result in injury as the skater is unable to properly break-in the boot. A boot that is too soft will result in a lack of support impacting performance and can lead to premature breakdown of the skates.

- **5000 Series** featuring the LCF sole; support ratings of 75 to 95
- **2000 Series** featuring the Fusion sole; support ratings of 35 to 69

Jackson Wrap/Performance Flex Notch

Designed for exceptional fit, the Jackson Wrap System secures your foot and stops internal movements and slipping and provides better stability and support. Performance Flex Notch, standard on Jackson Boots minimizes ankle and knee strain on forward flex while improving stability.

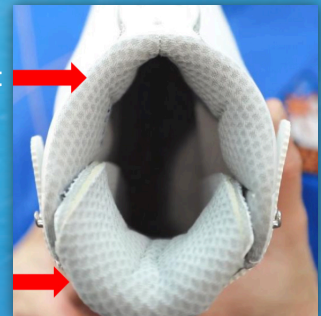

Jackson U-Throat & Shin Cushion

- Soft cuff wrap for comfort and injury prevention
- Internal lining with layers of Poron padding
- U-throat shape for easy initial try
- Performance padding on shin area

U-Throat

Shin Cushion

A Fit for all Feet

Jackson Fit

The Last defines the shape of the boot and determines the correct dimensions of the skate. Jackson has an extensive inventory of lasts to fit all foot shapes. Stock sizes cover most requirements however Jackson Custom can build a boot to your exact specifications.
