

FUSION SERIES

Built for Future Champions

At Jackson, we build equipment for the leading skaters in the sport incorporating that experience and technology into our mid-range products.

- Lightweight Fusion Outfits are made on Jackson's **Elite last** to provide a **wider toe box** and **narrower heels** for comfort and improved heel-lock
- Support Ratings ensure the skater has the appropriate level of support and blade design for the skater's skill level and body characteristics
- Fusion soles are **17% lighter** than LCL soles
